

Master de Génétique, Université de Paris
«Genetics and epigenetics of multifactorial diseases» GN0CU290
Organized by Valérie Serre & Fabien Fauchereau
October 11th-15th

Date	Room	Speaker	Lecture
Monday, october 11th			
10h – 12h00	Zoom sessions	Fabien FAUCHEREAU	Methods for gene mapping in humans: an introduction
14h – 16h		Guillaume ACHAZ	How do we explain genetic diversity in 2019?
16h15 – 18h15		Djihad HADJADJ	3D epigenomics of pediatric brain tumors
Tuesday, october 12th			
10h – 12h	Zoom sessions	Giuseppe BALDACCI	Cancer, from genes to environment and reciprocally
14h - 16h		Ganna PANASYUK	Metabolic adaptations in cancer
Wednesday, october 13th			
10h – 12h	Zoom sessions	Jean-Pierre HUGOT	Genetics of inflammatory bowel diseases
14h – 16h		Guillaume VELASCO	Epigenetics in a heterogeneous genetic disease: lessons from the ICF syndrome
Thursday, october 14th			
10h – 12h	Zoom sessions	Claire VANDIEDONCK	Genetics and epigenetics of diabetes
14h - 16h		Bruno ETAIN	Bipolar disorders
Friday, october 15th			
10h – 12h	Zoom session	Guillaume LAVAL	Genome-wide detection of Darwinian selection in the human genome
15h – 17h	Buffon RH10A	Exam
